TEACHING EXPERIENCE

Computer Science Instructor 2025 – Present

Computer Guide Center (CGC), Midnapore, West Bengal

- Deliver computer science instruction to CBSE, ICSE, and undergraduate-level students, covering programming (C, Java, Python) and core computer science concepts.
- Design and conduct hands-on robotics sessions using Arduino and ESP32, introducing students to robotics and IoT fundamentals.

PROJECTS

CGC ERP Platform — Computer Guide Center (Live Production Platform) 2026

- Architected and deployed a production-grade full-stack ERP platform for student management, fee tracking, and administrative analytics.
- Built a responsive glassmorphism UI with Framer Motion, delivering a premium user experience.
- Implemented secure authentication, role-based access, and automated fee management workflows.
- Developed and deployed the application using Next.js, TypeScript, Tailwind CSS, Prisma, Supabase, and Vercel.

Live Demo: cgcmid.in

Android Learning App for Mock Tests 2024

- Developed an Android application enabling students to practice question sets and take mock tests for structured exam preparation.
- Used Kotlin and Firebase for real-time data handling, supporting self-assessment and progress tracking.

College Admission Web Portal 2024

- Built a web portal to manage the end-to-end student admission process efficiently.
- Used HTML, CSS, JavaScript, and MySQL to enable organized, reliable data storage and retrieval.
